

STATEMENT OF PURPOSE

RS22720

To authorize schools to voluntarily maintain a supply of epinephrine auto-injectors for the treatment of life-threatening allergic reactions. To provide protection from civil liability for schools and school staff when administering an epinephrine auto-injector in good faith. To amend the pharmacy practice act to allow exceptions so that schools may stock epinephrine supplies.

FISCAL NOTE

Likely no fiscal impact. Participation is voluntary. If a school does choose to participate, auto-injectors can be obtained for free via existing manufacturer programs. Training of designated school staff utilizes minimal time commitments and can be easily accomplished using existing free training programs online and/or completed on scheduled in-service days.
